

***LIBERTY HEAD NICKEL
DOUBLED DIES***

1887 Doubled Die Reverse

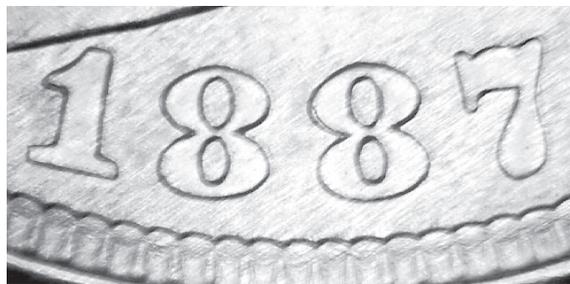

DDR-001

Cross reference : PM-24.2, FS-014, 1-R-II

Description : Class II, *Distorted Hub Doubling*
 Doubling shows on UNITED STATES OF AMERICA, E PLURIBUS UNUM, CENTS, the wreath.

Repunched Date: 1887/8

Repunched second 8 seen to the left of the upper loop.

**Diagnostics :****Die Markers:**

Obverse: None noted.

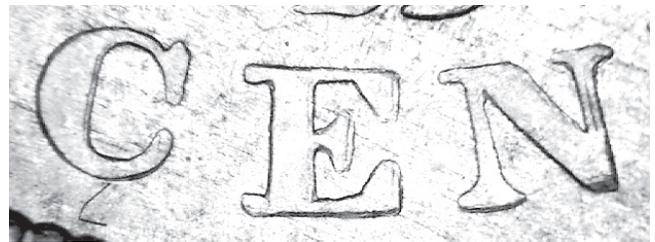

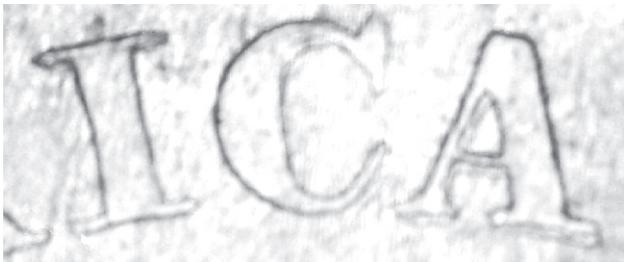

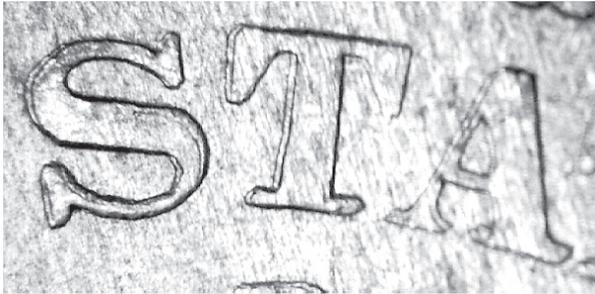

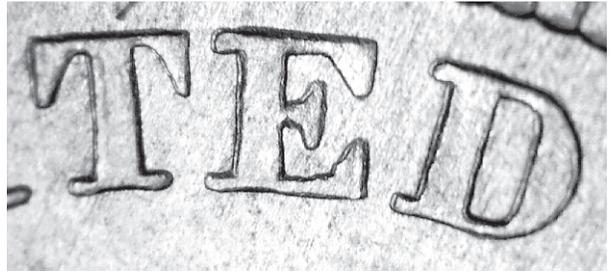

Reverse: Strike doubling seen on most of the outer letters.

	VF	XF	AU	MS60	MS63
Value :	45	85	120	170	325

Comments : This is one of the most confusing doubled dies ever examined in terms of the Class of Doubling. OF and UNUM are offset to 1 o'clock, it is extremely difficult to tell which direction US of PLURIBUS is offset. E PLURIB and STAT of STATES is offset to about 5 o'clock. AMERICA is going towards the rim, CENTS looks like a Class V. The only possible solution is dramatic distortion. If anyone has other ideas, please let us know. The coin photographed was a high grade.

1887 Tripled Die Reverse

DDR-002

Cross reference : 2-R-II

Description : Class II, *Distorted Hub Doubling*
Tripling shows on the AM of AMERICA.
Doubling shows on UNITED STATES OF
AMERICA, CENT., E PLURIBUS UNUM, and
parts of the right side of the wreath.

Repunched Date: 1887/188

Repunched 1 below the serif and bottom.

Repunched 88 seen above tops.

Diagnostics :

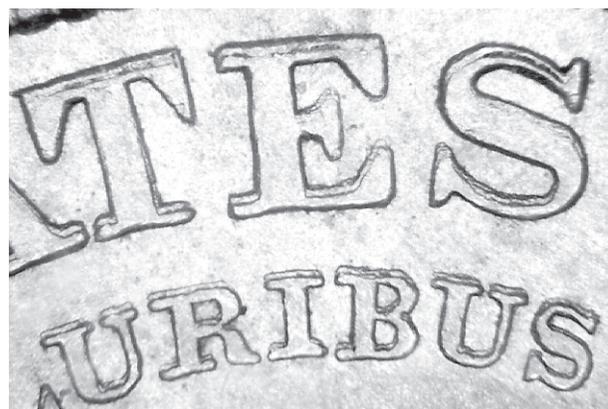

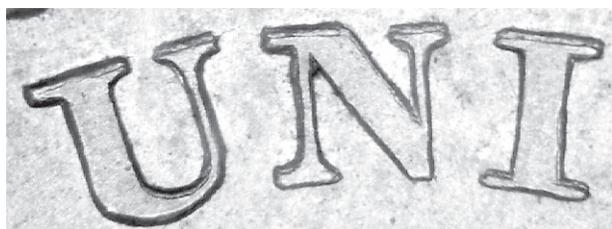

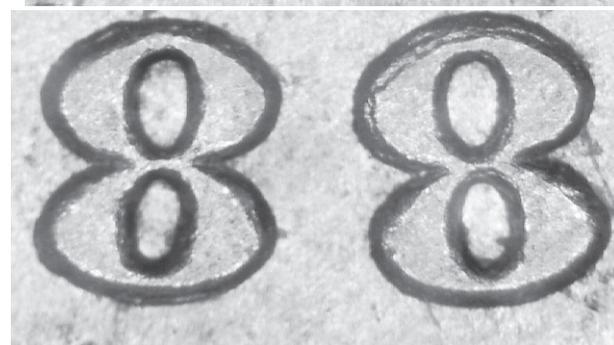

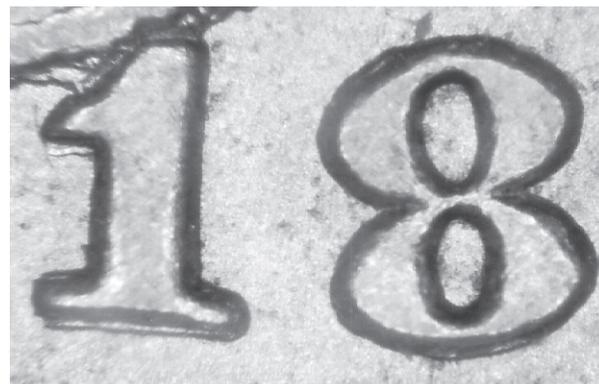

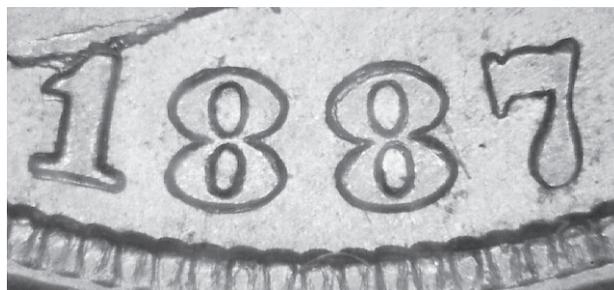

Die Markers:

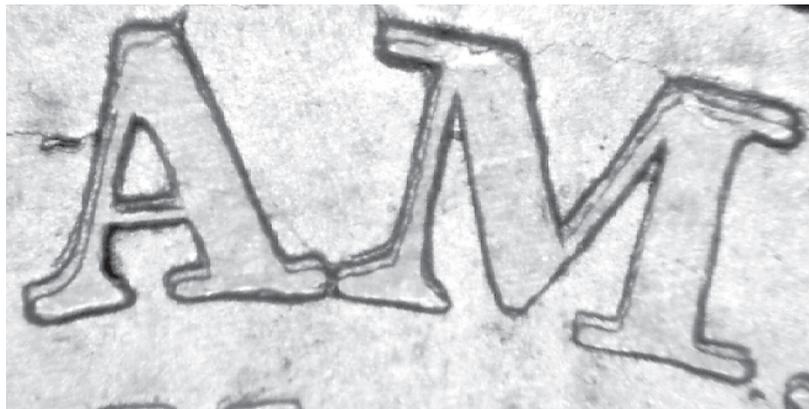

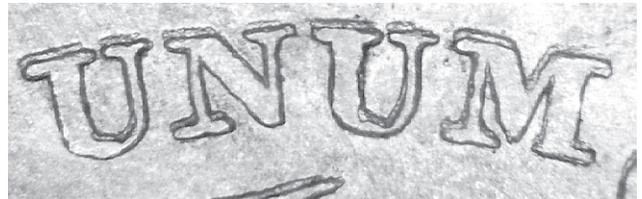

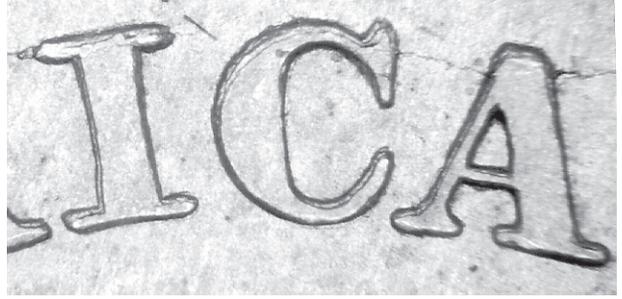

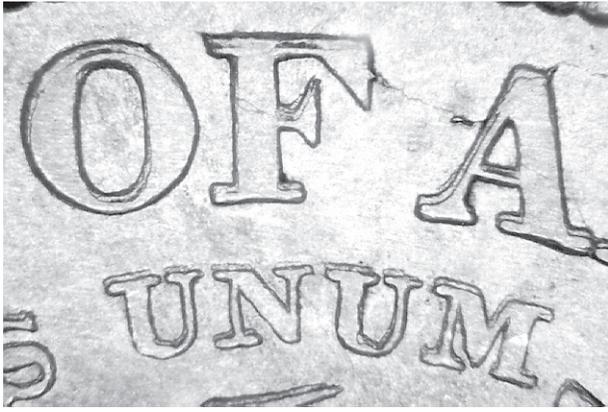

Obverse: A cud is seen between the top of the 1 and the bust. Die crack through the 3rd through 6th star on the left. Die crack from the 7 up through all the stars on the right.

Reverse: Die crack through the top of UNTIED.
Die crack through the top of STATES. Die crack through the top of OF AMERICA to the D, then to the T of CENT.

	VF	XF	AU	MS60	MS63
Value :	40	75	90	140	225

Comments : This doubled die would be much more in demand if it was not in the shadows of the DDR-001. Even in low grades this variety can be verified, especially on the top of PLURIBUS.

1887 Doubled Die Reverse

DDR-003

Cross reference : 3-R-II

Description : Class V, *Pivoted Hub Doubling*
 Doubling shows on CENTS, STATES OF AMERICA, the lower wreath and the wreath on the right side.

Repunched Date
 Repunched 1 south.

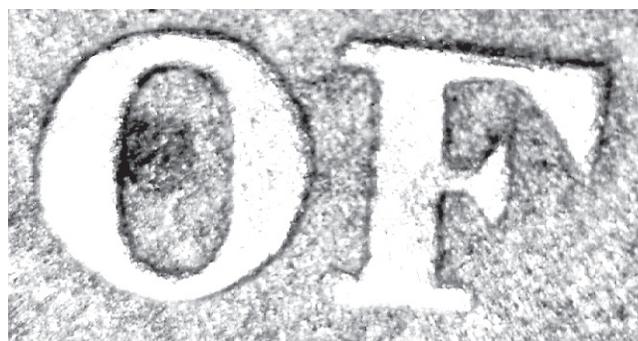

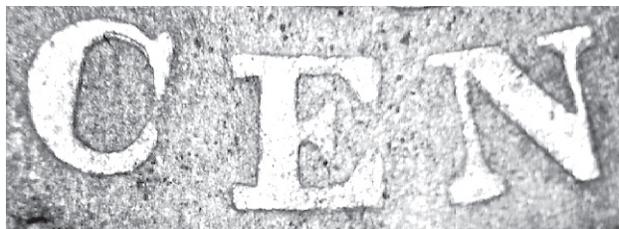

Diagnostics :**Die Markers:**

Obverse: None noted.

Reverse: None noted.

	VF	XF	AU	MS60	MS63
Value :	40	75	90	140	225

Comments : The doubling on this coin is nice, a higher grade is needed for better pictures. You can see the obvious separation on AMERICA and CENTS.

1888 Doubled Die Obverse

DDO-001

Cross reference : RPD-002

Description : Class IV + VIII, *Offset & Tilted Hub*
Doubling
 Doubling shows on the stars on the left side, the neck, bottom of the bust, chin, lips, and nostrils.

Repunched Date: 1888/188/8

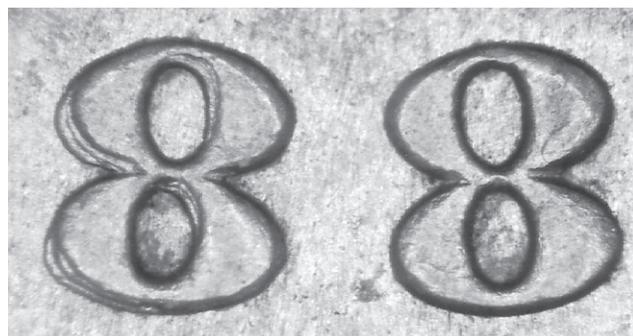

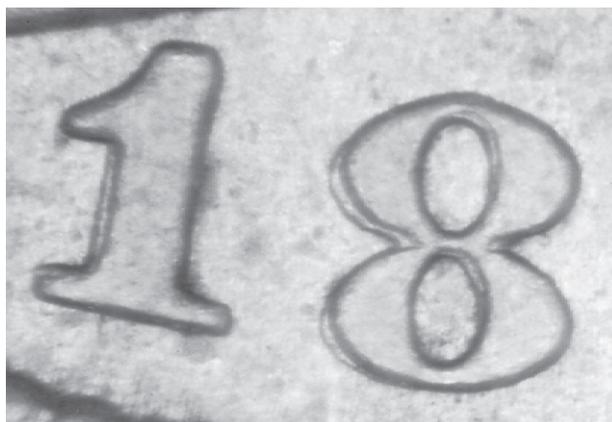

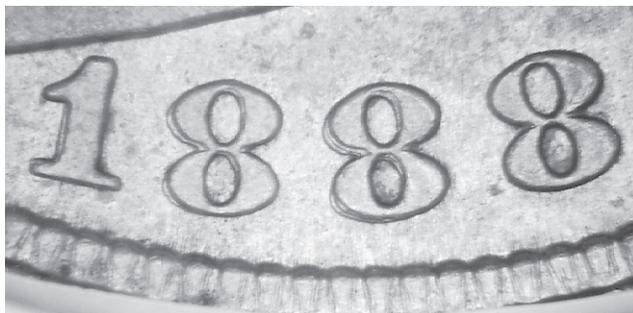

Diagnostics :

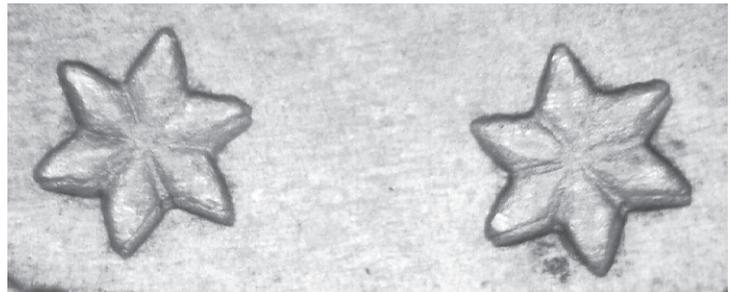

Die Markers:

Obverse: None noted.
 Reverse: None noted.

	VF	XF	AU	MS60	MS63
Value :	50	75	130	200	310

Comments : This is one of those nice hidden varieties which few collectors know about. Only one has been certified by ANACS which is this coin. Only one other specimen has been verified. This is easy to verify in any grade because of the strength of the doubling and repunching.

1888 Doubled Die Obverse

DDO-002

Cross reference : RPD-003

Description : Class IV + VIII, *Offset & Tilted Hub*

Doubling

Doubling shows on the stars on the left side, the bottom of the bust, chin, lips, and nostril, eye, and LIBERTY.

Repunched Date: 1888/188/1

Diagnostics :

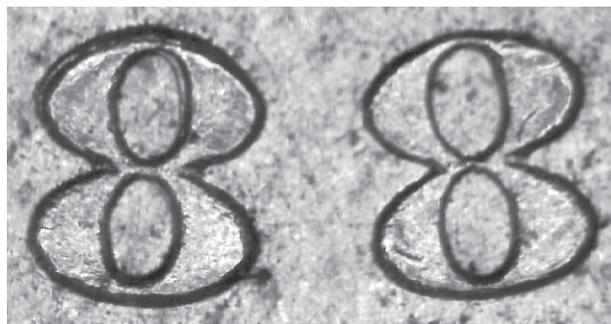

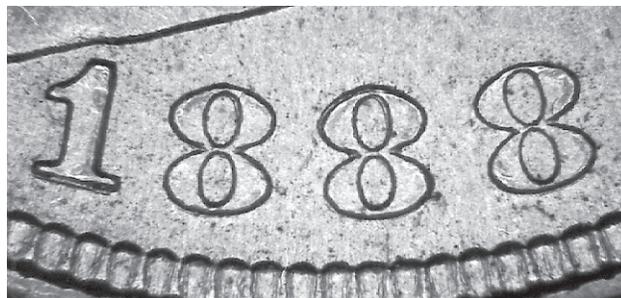

Die Markers:

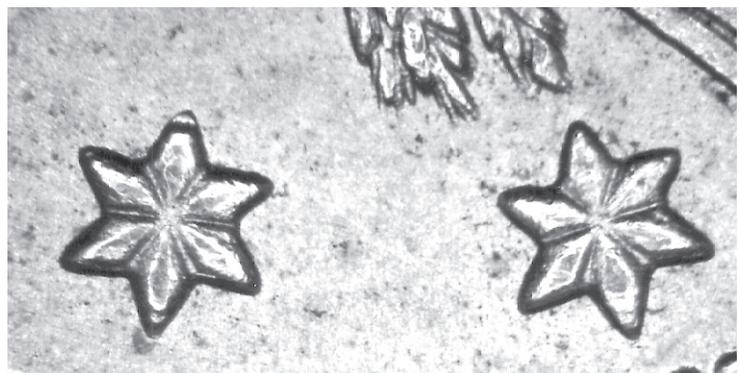

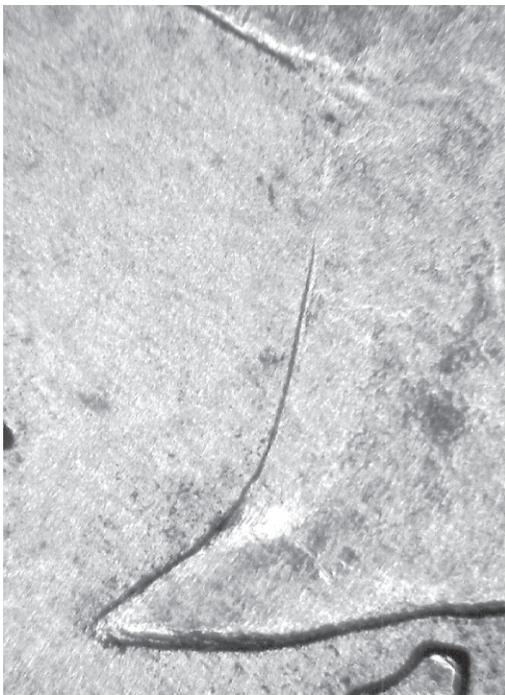

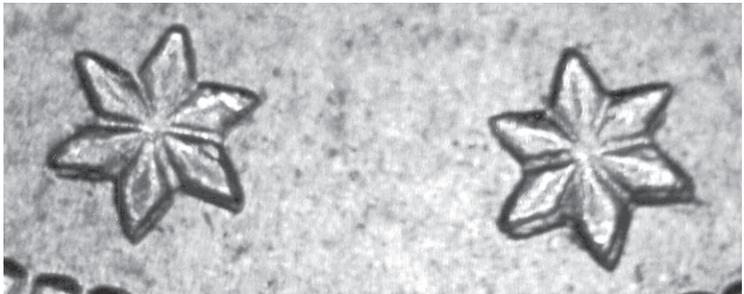

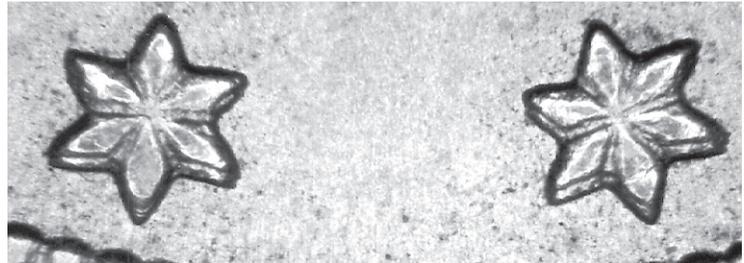

Obverse: None noted.

Reverse: Die crack from the wreath through the left dot, top of UNITED, die crack through the top of STATES O. Die crack through the top of MERICA. Die crack from the rim through the T of CENTS to the wreath.

	VF	XF	AU	MS60	MS63
Value :	50	75	130	200	310

Comments : This is a new different doubled die that was listed as the last minute. It was thought important enough that the book was held up so that it could be inserted at the end. It is entirely different from DDO-001/RPD-003. Notice the difference on doubling on the neck and lips.

1888 Doubled Die Reverse

DDR-001

Cross reference : None

Description : Class II, *Distorted Doubling*
Doubling shows on the dots, CENTS, RICA of AMERICA, and the bottom of the wreath..

Diagnostics :

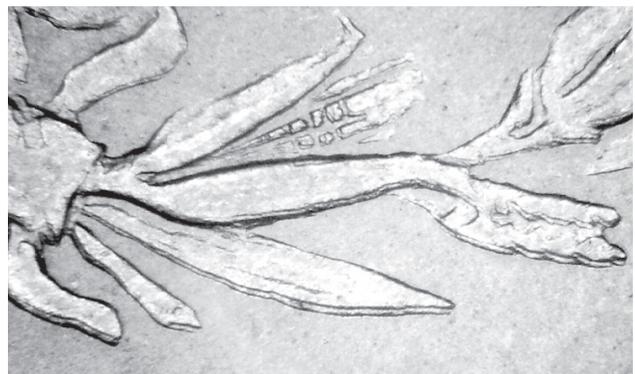

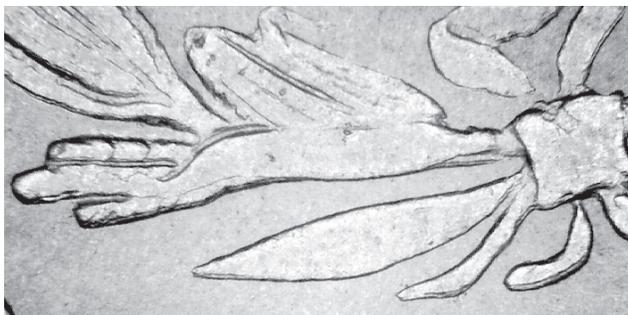

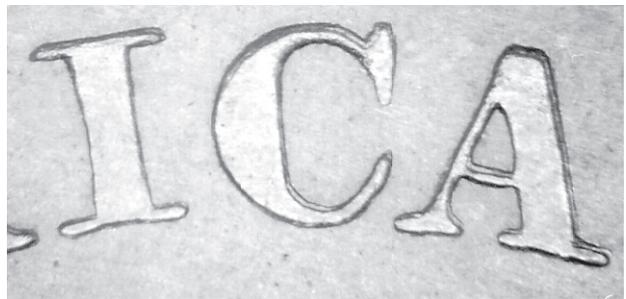

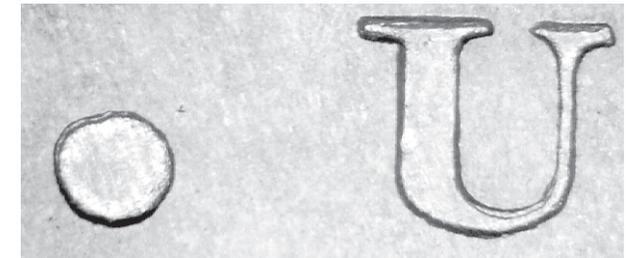

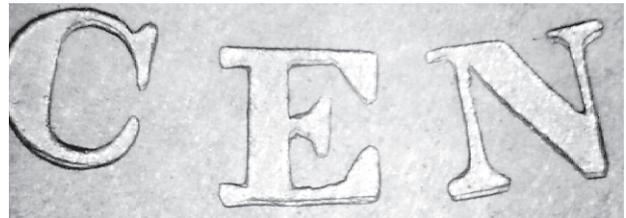

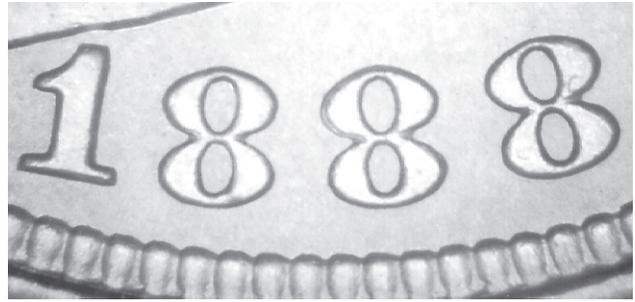

Die Markers:

Obverse: None noted.

Reverse: None noted.

	VF	XF	AU	MS60	MS63
Value :	50	75	130	200	310

Comments : .

1892 Doubled Die Reverse

DDR-001

Cross reference : None

Description : Class II, *Distorted Hub Doubling*
 Doubling shows on the second S of STATES, OF AMERICA, BUS of PLURIBUS, UNUM, and the wreath on the right side.

Diagnostics :**Die Markers:**

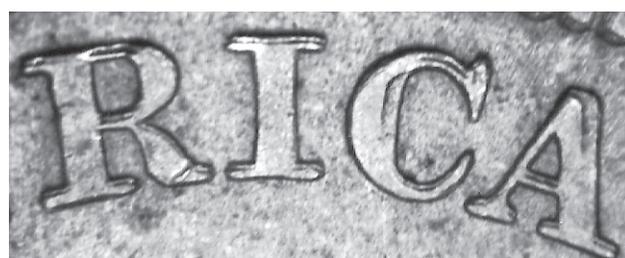

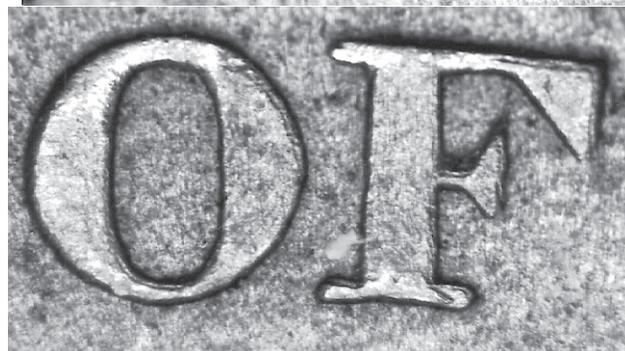

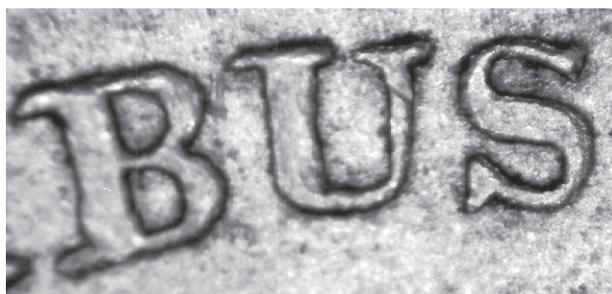

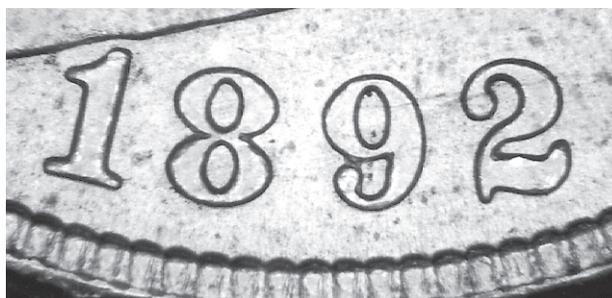

Obverse: Die crack from the field through the 18.
 Die crack from the bust to the first star on the left.
 Die crack through the 4th, 5th, and 6th stars on the left. Die scratches seen above the head.

Reverse: Strong strike doubling seen on CENTS, U of UNITED, the dots. Die crack through TATES of STATES.

VF XF AU MS60 MS63

Value : 40 60 110 170 280

Comments : Last minute addition to the book, there will probably be a few more new doubled dies found when collectors start to search this series more.

1900 Doubled Die Reverse

DDR-001

Cross reference : PM-37.2, FS-014.7

Description : Class IV, *Offset Hub Doubling*
 Doubling shows nicely on UNITED STATES OF AMERICA, E PLURIBUS UNUM, FIVE CENTS, the entire wreath and the V.

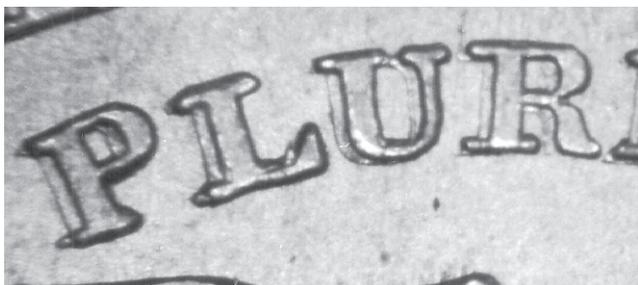

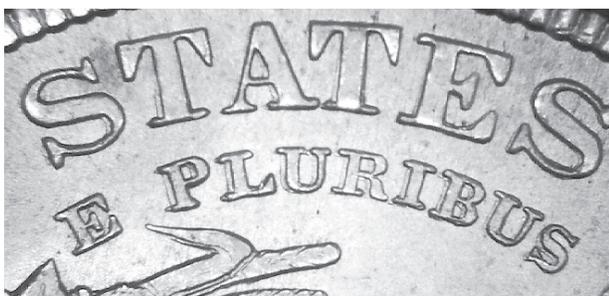

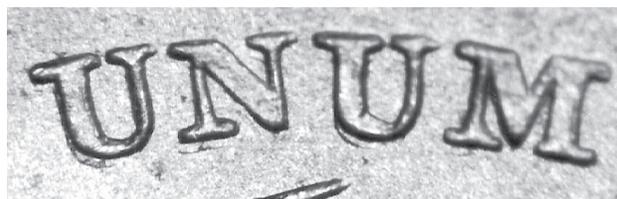

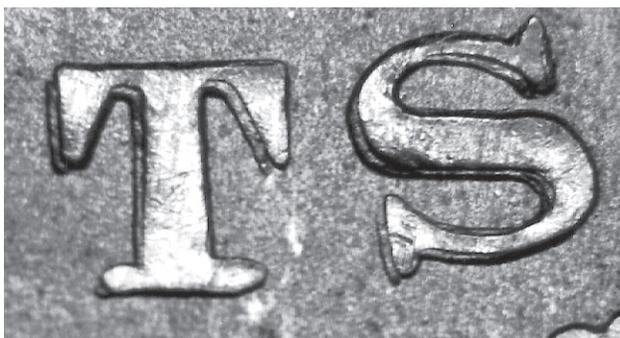

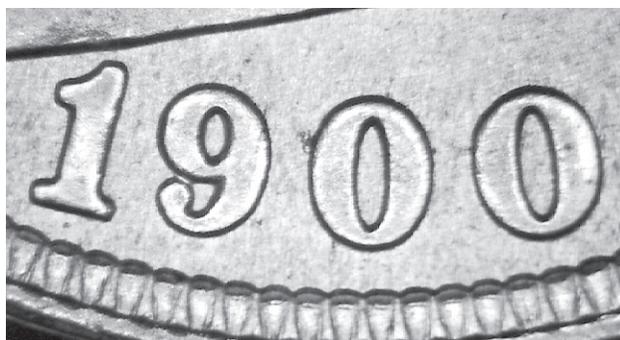

Diagnostics :

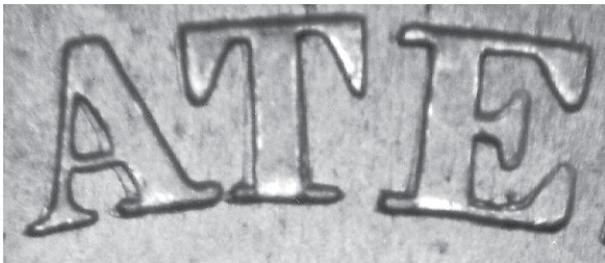

Die Markers:

Obverse: None noted.
 Reverse: None noted.

	VF	XF	AU	MS60	MS63
Value :	40	60	110	170	280

Comments : This variety has been known for years, yet few have been found. Perhaps this is because few cherry picker's search this series for its treasures, perhaps it is because not all collectors check the reverse of their cons. For a variety like this, it is worth checking all 1900 reverses.

1902 Doubled Die Obverse

DDO-001

Cross reference : None

Description : Class II, *Distorted Hub Doubling*
 Tripling seen on the first star on the left Doubling shows on all the rest of the stars towards the center, and slightly on top of the head and crown.

Diagnostics :

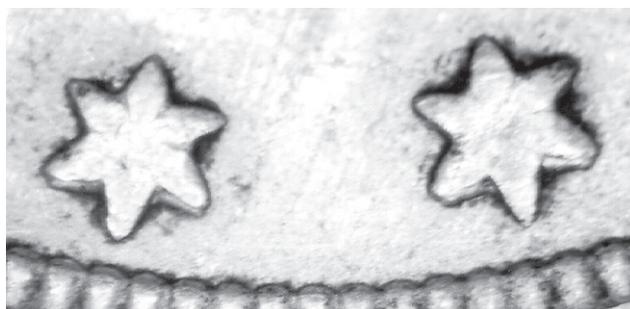

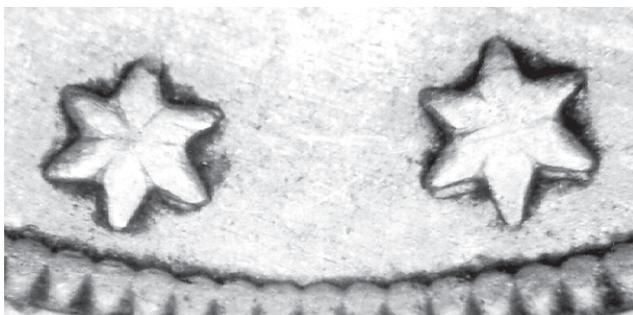

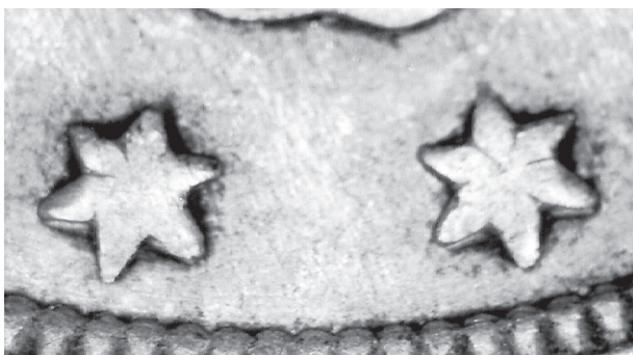

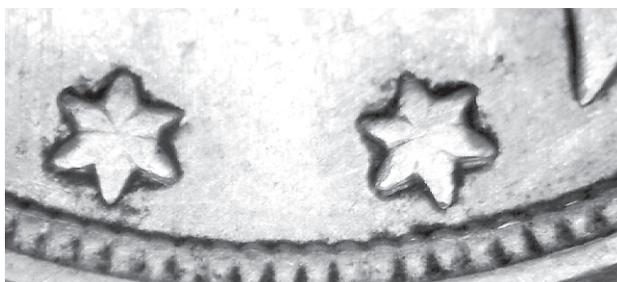

Die Markers:

Obverse: Die chip seen in the bottom of the 2.

Reverse: None noted.

	VF	XF	AU	MS60	MS63
Value :	20	35	60	130	200

Comments : Similar to 1888 DDO-001 with the doubling on the stars, but this is a Class II which shows doubling on the stars around the entire coin going toward the center. This is another doubled die in this series which has not been widely published and there are probably many to be picked by the watchful eye. Prizes like this makes the hunt worth while.

***LIBERTY HEAD NICKEL
MISPLACED DATES***

1902 Misplaced Date

MPD-001

Cross reference : RPD-005

Description : *Misplaced Date*

The top of a 2 is seen in the denticles between the 0 and 2.

Repunched date: 1902/19

Repunched 1 seen to the left of the base.

Repunched 9 seen below the bottom.

Location in denticles:

2 L 1 .5

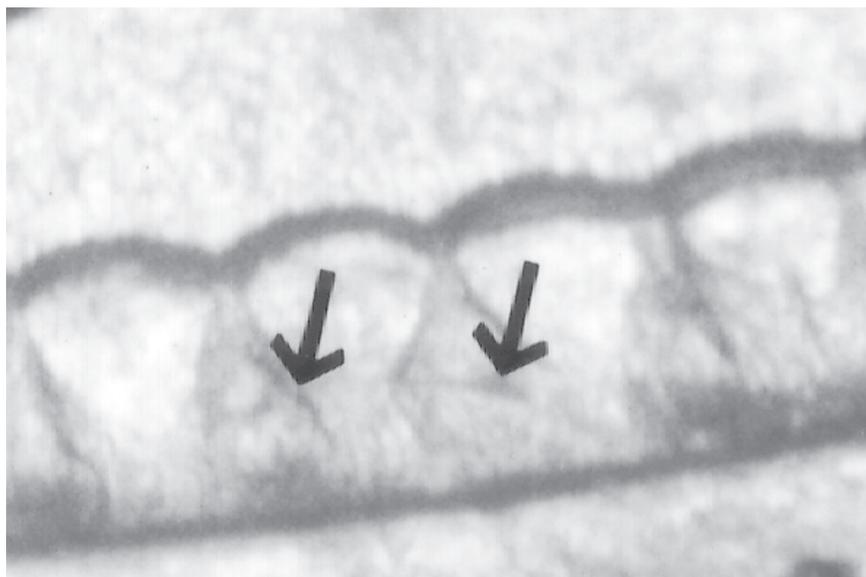

Diagnostics :

Die Markers:

None noted.

	VF	XF	AU	MS60	MS63
Value :	20	35	75	110	160

Comments : Only five MPDs are currently known in this series, with the number in Indian cent MPDs created during this time frame, it is logical that more MPDs are found here.

1905 Misplaced Date

MPD-001

Cross reference : None

Description : *Misplaced Date*

The top of a 0 is seen in the denticles right above the rim to the left of the 0. The top of a 5 is seen in the middle of the denticles to the left of the 5.

Repunched date: 1905/905

Repunched date wide to the left seen on the lower inside of the 9, 0, and 5.

Location in denticles:

0	0 .1
5	0 .5

Diagnostics :

Die Markers:

None noted.

	VF	XF	AU	MS60	MS63
Value :	20	35	75	115	170

Comments : There are many theories on how misplaced dates were created. It is hard to imagine how the die sinker could have made such a dramatic mistake. Remember though that we are looking at photographs at 60 times normal size, these MPDs are only 1/10 of an inch from their normal position.

1905 Misplaced Date

MPD-002

Cross reference : RPD-004

Description : *Misplaced Date*

The top of a 5 is seen in the denticles below the 0.

Repunched date: 1905/5

Repunched 5 seen below the top.

Location in denticles:

5 L 4 .9

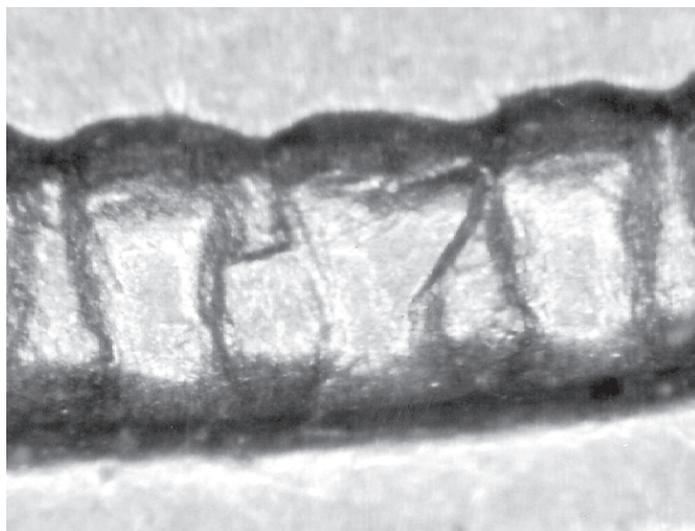

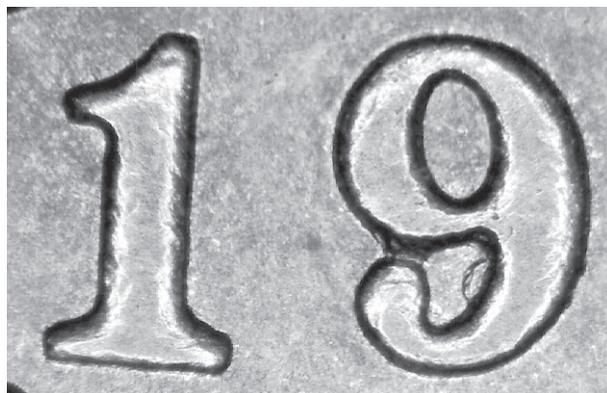

Diagnostics :

Die Markers:

None noted.

	VF	XF	AU	MS60	MS63
Value :	20	35	75	115	170

Comments : The variety was photographed because it was a repunched date. After looking at the pictures, the 5 in the denticles jumped out it was so clear. Always check the denticles.

1908 Misplaced Date

MPD-001

Cross reference : RPD-007

Description : *Misplaced Date (east & in denticles)*
The top of a 8 can be seen in the denticles

Location in denticles:

8 L 1 1

Repunched date: 1908/1908

Repunched date east seen on all 4 digits.

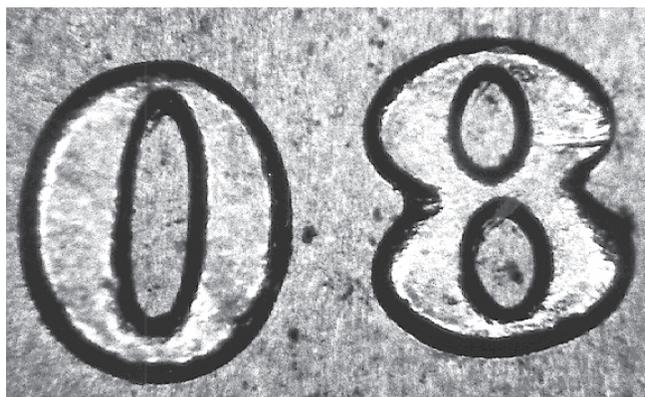

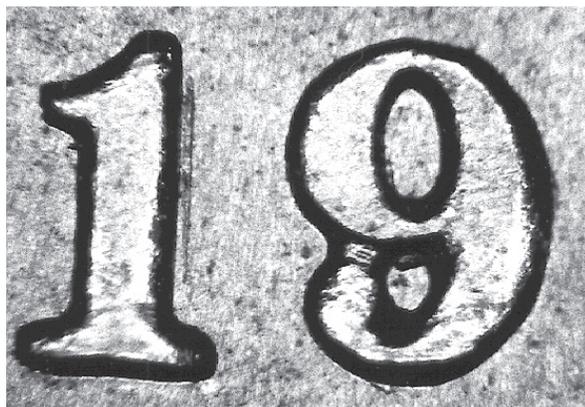

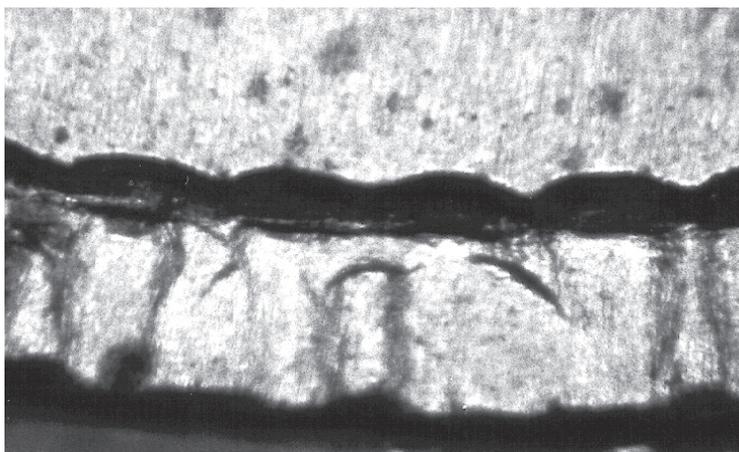

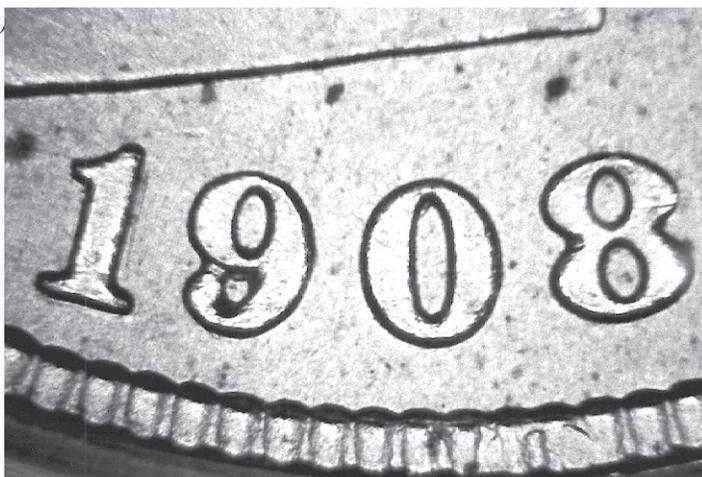

Diagnostics :

Die Markers:

None noted.

	VF	XF	AU	MS60	MS63
Value :	20	35	80	120	180

Comments : The 8 was very boldly punched into the denticles, obliterating the right denticle below it. This is a clear case of a die sinker striking with full force. Very few Liberty nickel MPDs have been found, but at the same time, they have not been researched like the Indian cents.

1908 Misplaced Date

MPD-002

Cross reference : None

Description : *Misplaced Date (east & in denticles).*
The top of a 8 can be seen at the top of the denticles slightly to the left of the 8.

Location in denticles:
8 L 0 1

Diagnostics :

Die Markers:
None noted.

	VF	XF	AU	MS60	MS63
Value :	20	35	75	110	160

Comments : 1908 is a hot year for many series for misplaced dates, this is probably one of the main reason why in 1909 the date was put on the Galvano and master die.

1908 Misplaced Date

MPD-003

Cross reference : None

Description : *Misplaced Date (east & in denticles).*

The top of a 8 can be seen at the top of the denticles slightly to the left of the 8.

Location in denticles:

8 L 0 1

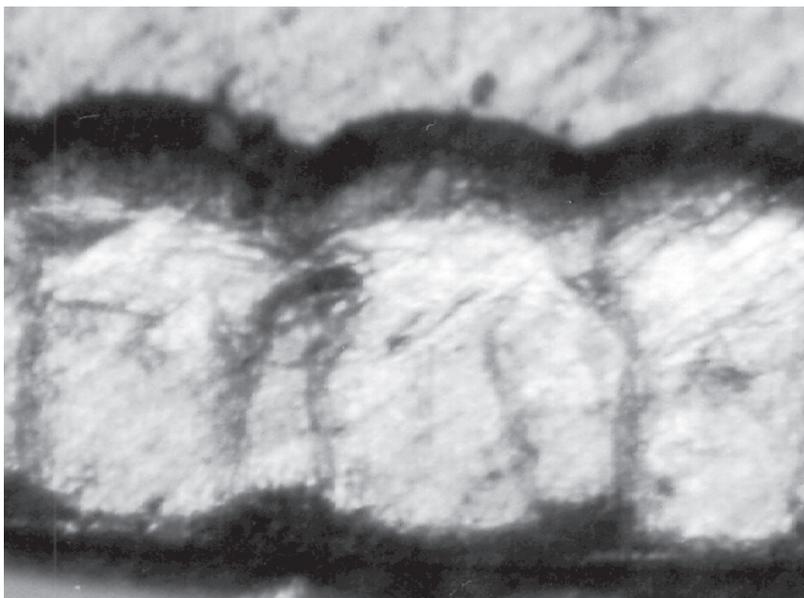

Diagnostics :

Die Markers:

None noted.

	VF	XF	AU	MS60	MS63
Value :	20	35	75	110	160

Comments : MPD-002 and this MPD look very similar, but the relative location of the digit in the denticles to the normal date makes distinguishing them very easy.

1908 Misplaced Date

MPD-004

Cross reference : None

Description : *Misplaced Date (east & in denticles).*
The top of a 8 can be seen in the middle of the denticles slightly to the left of the 8.

Location in denticles:
8 L 0 .5

Diagnostics :

Die Markers:
None noted.

	VF	XF	AU	MS60	MS63
Value :	20	35	75	110	160

Comments : MPD-002 and this MPD look very similar, but the relative location of the digit in the denticles to the normal date makes distinguishing them very easy.

LIBERTY HEAD NICKEL REPUNCHED DATES

1883 NC Repunched Date RPD-001

Cross reference : None

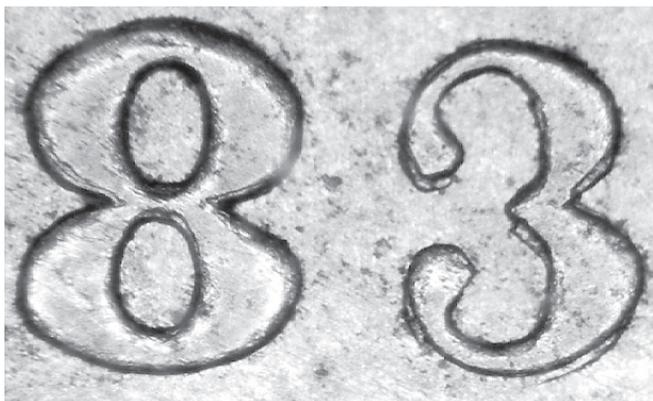

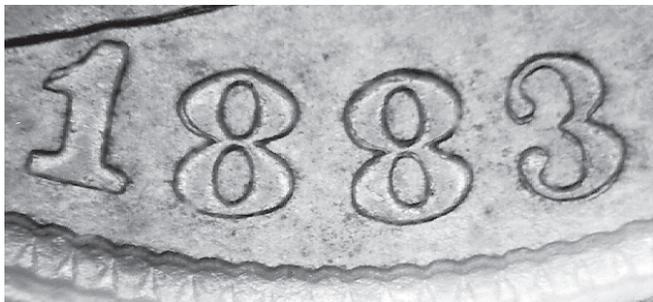

Description : Repunched Date 1883/1883.
 Repunched 1 seen above the top of the 1. Repunched first 8 seen to the left. Triple punched second 8 seen above and below the middle of the 8. Repunched 3 seen below the top, middle and bottom.

Die Markers:

Obverse - Small die crack through the bottom of 188. Die crack from the bust to the first star on the left. Die crack from the rim, through the 6th left star through the cap, then to the 7th star. Die crack from the 7star to the 10th.

Reverse - None noted.

	VF	XF	AU	MS60	MS63
Value :	7	10	15	30	60

1883 NC Repunched Date RPD-002

Cross reference : None

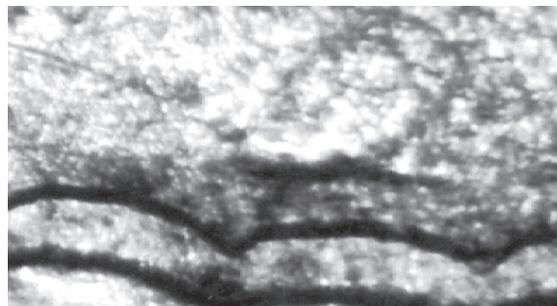

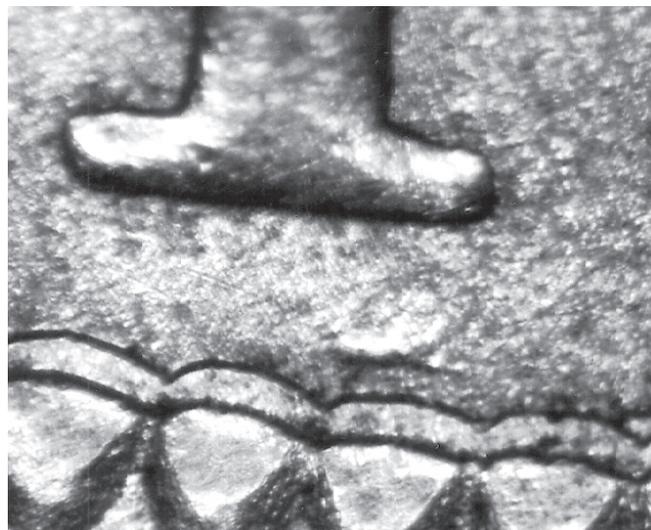

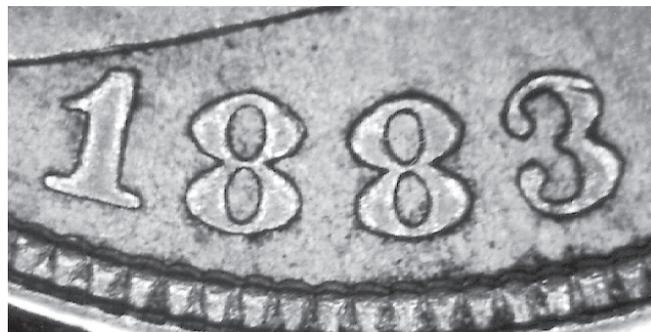

Description : Repunched Date 1883/1.
 What appears to be the top serif of a 1 is seen below the right base of the 1.

Die Markers:

Obverse - Die crack through the bottom of 883.

Reverse - Die crack from D of UNITED to the rim, then through STATE and back to the rim. Die crack from the rim through AMERICA and UNUM.

	VF	XF	AU	MS60	MS63
Value :	10	14	20	45	90

1883 NC Repunched Date RPD-003

Cross reference : None

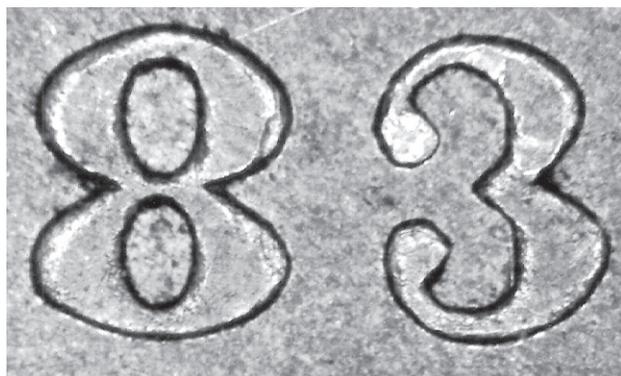

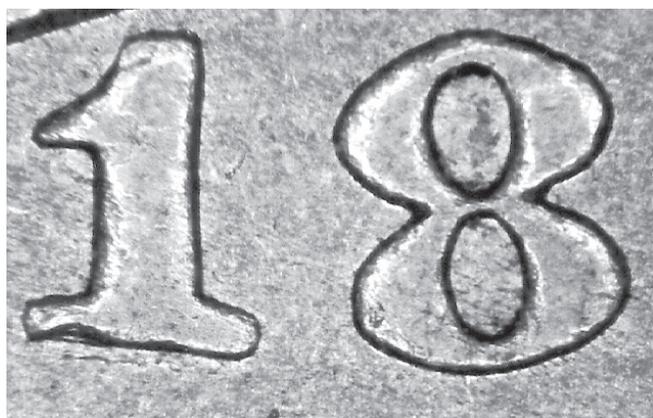

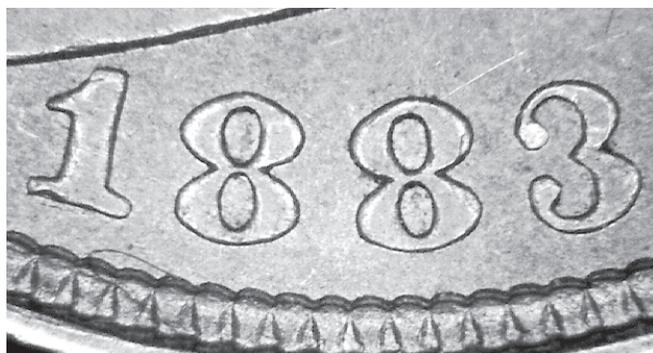

Description : Repunched Date 1883/183.
 Repunched 1 seen below the bottom. Repunched first 8 seen slightly below the middle. Repunched 3 seen to the left of the bottom.

Die Markers:

Obverse - Die crack from the rim at 6 o'clock through the star to the cap.

Reverse - Die crack through the bottom of E PL. Die crack from the rim through STATE then back to the rim. Small braken die crack through AME of AMERICA.

	VF	XF	AU	MS60	MS63
Value :	6	9	12	25	50

1883 NC Repunched Date RPD-004

Cross reference : PM-19.3, PM-19.4, Breen 2531

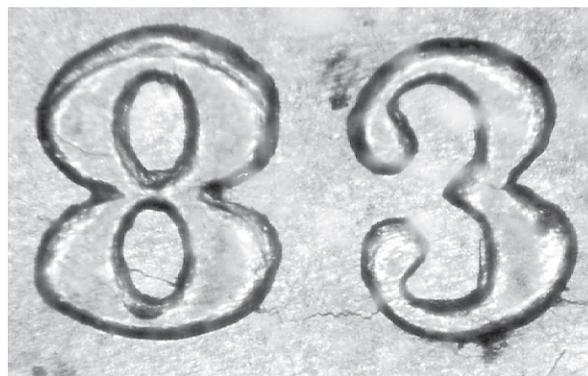

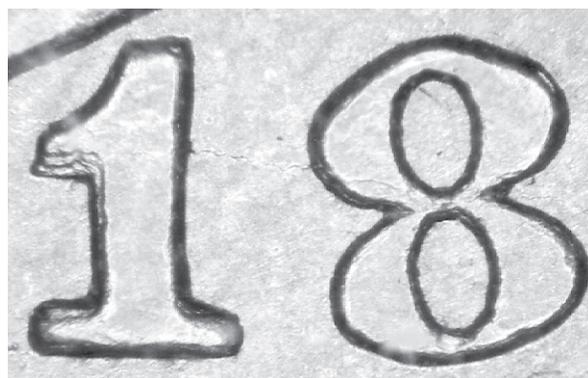

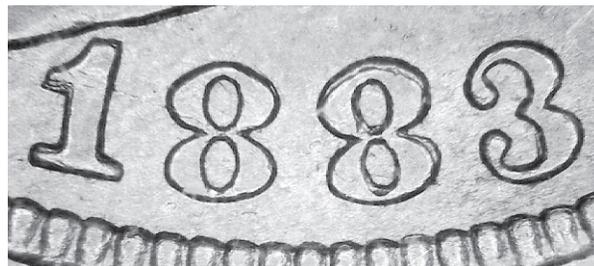

Description : Repunched Date 1883/1883.
 Triple punched 1 seen below the serif and on the left side of the 1. Repunching also seen below the bottom of the 1. Repunched first 8 seen below the middle. Repunched second 8 seen above the bottom, middle and top. Repunched 3 on the inside lower loop.

Die Markers:

Obverse - Die crack from the fourth star on the left, through the first four stars, to the bust, then through the top of the top of the 1, middle of the 8, bottom of the 83 to the rim. Die crack through the first four stars on the right.

Reverse - Die crack through the top of UNITED. Die crack through the top of AMERICA.

	VF	XF	AU	MS60	MS63
Value :	7	10	15	30	65

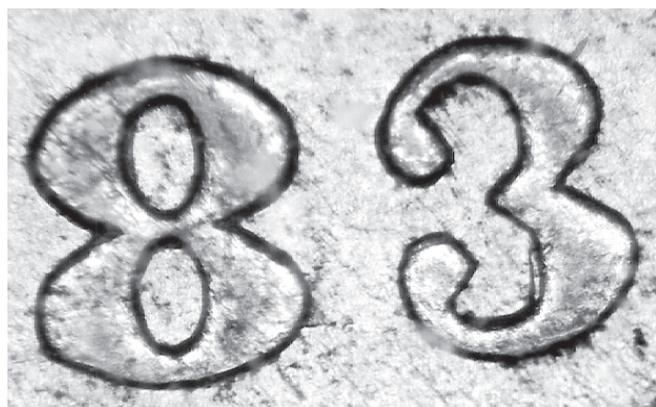

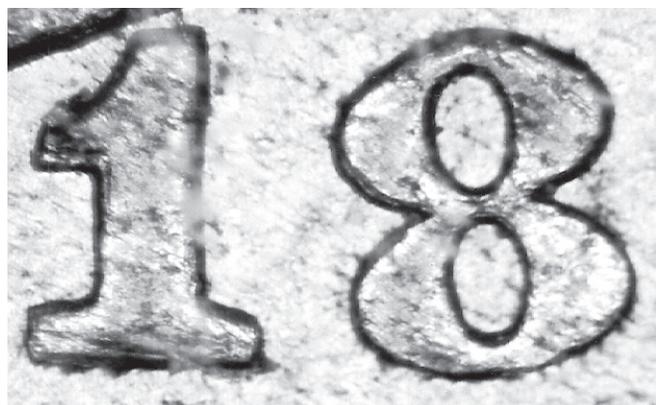

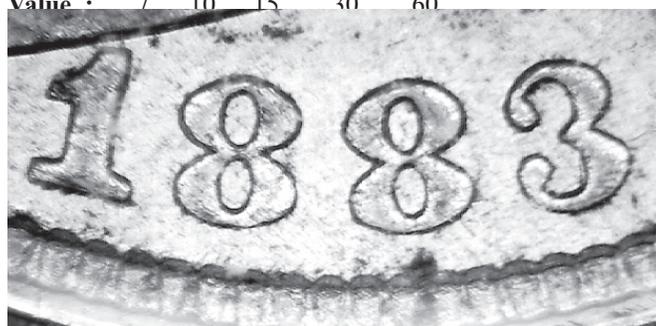

1883 NC Repunched Date RPD-005

Cross reference : PM-19.1, Breen 2530

Description : Repunched Date 1883/1883.
 Repunched 1 seen below the serif and on the left side, and below the bottom of the 1. Repunched first 8 seen below the middle. Repunched 3 on the inside lower loop.

Die Markers:
Obverse - Die crack through the first four stars on the right.
Reverse - Die crack from the E of STATES to the rim. Die crack from the rim through the top of OF back to the rim.

	VF	XF	AU	MS60	MS63
Value :	7	10	15	30	60

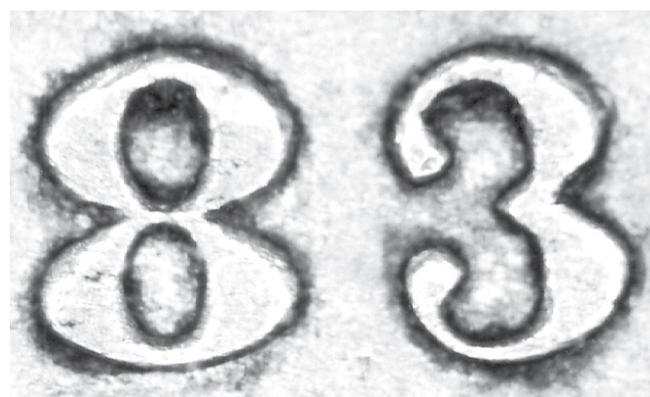

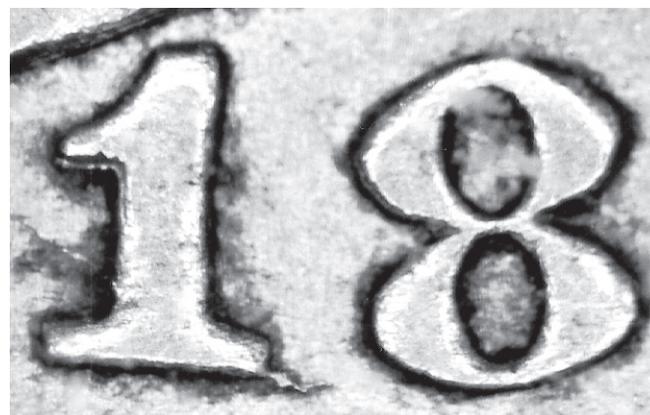

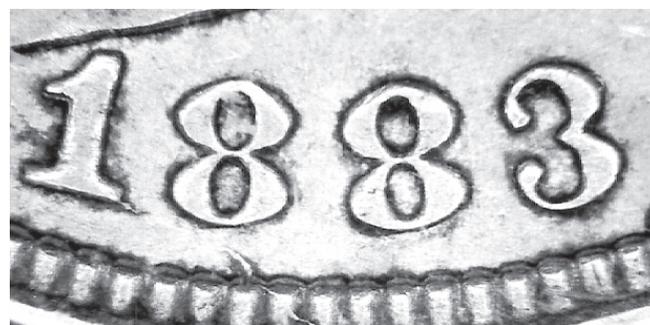

1883 NC Repunched Date RPD-006

Cross reference : PM-19.2

Description : Repunched Date 1883/1.
 Repunched 1 seen below the serif and on the left side of the 1.

Die Markers:
Obverse - Die crack from the first star on the left, through bust through the bottom of the 1 to the rim. Die crack from the rim, through the 5th and 6th stars from the left, then back to the rim. Die crack through the first 6 stars on the right.
Reverse - None noted.

	VF	XF	AU	MS60	MS63
Value :	7	9	12	25	50

1883 NC Repunched Date RPD-007

Cross reference : None

Description : Repunched Date 1883/8.
Repunched second 8 seen above the bottom.

Die Markers:

Obverse - Die crack from the bust through the top of the 1 to the middle of the 8.

Reverse - None noted.

	VF	XF	AU	MS60	MS63
Value :	7	9	12	25	50

1883 NC Repunched Date RPD-008

Cross reference : None

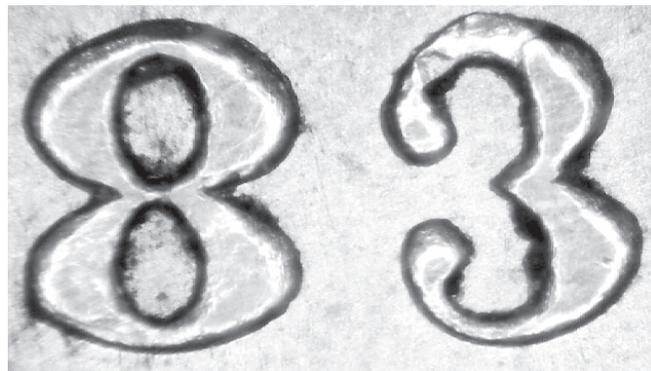

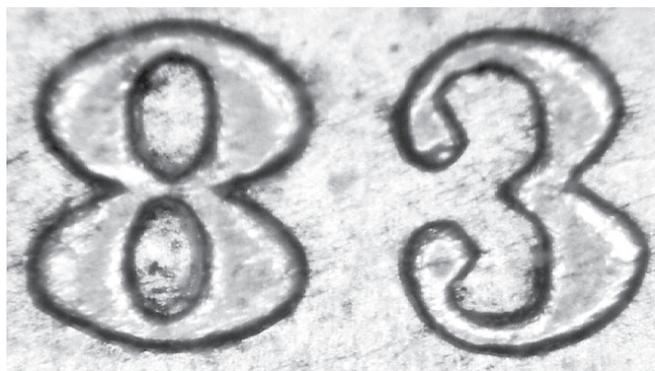

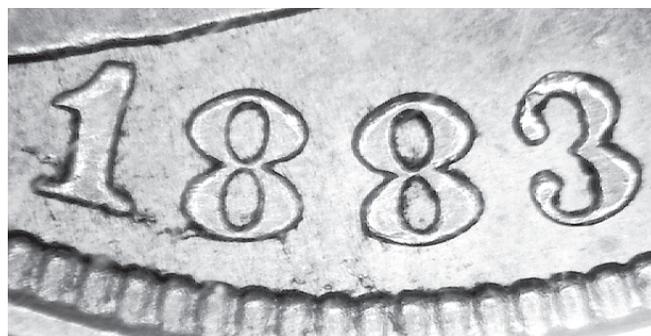

Description : Repunched Date 1883/8.
Repunched first 8 seen in the lower right inside.

Die Markers:

Obverse - Die crack from the field through the bottom of the 18 to the rim.

Reverse - None noted.

	VF	XF	AU	MS60	MS63
Value :	7	9	12	25	50

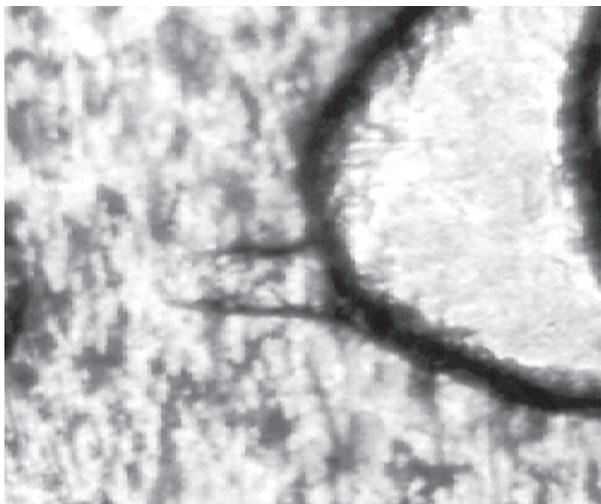

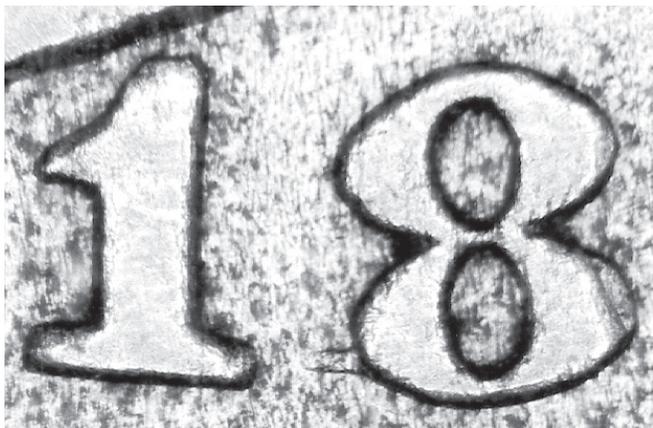

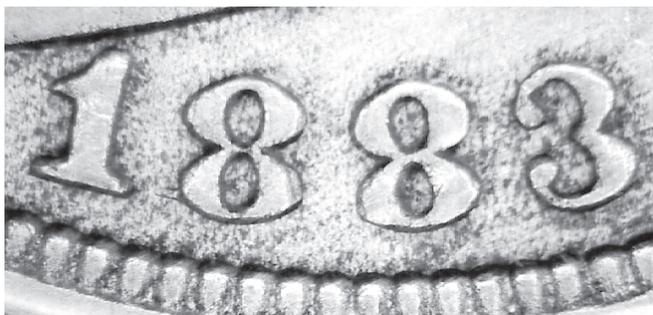

1883 NC Repunched Date RPD-009

Cross reference : PM-20.3, FS-13.7

Description : Repunched Date 1883/1.
The base of a 1 is protruding from the left lower side of the first 8.

Die Markers:
Obverse - None noted.
Reverse - None noted.

	VF	XF	AU	MS60	MS63
Value :	10	20	35	65	120

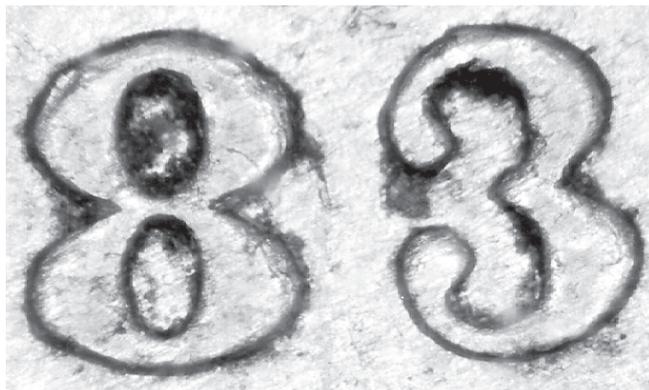

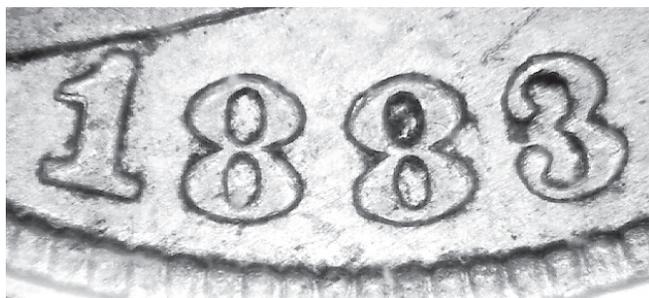

1883 NC Repunched Date RPD-010

Cross reference : None

Description : Repunched Date 1883/183.
Repunched 1 seen below the serif and on the left side.
Repunched first 8 seen below the middle. Repunched 3 on the inside of the lower loop.

Die Markers:
Obverse - None noted.
Reverse - None noted.

	VF	XF	AU	MS60	MS63
Value :	7	9	14	30	55

1883 NC Repunched Date RPD-011

Cross reference : None

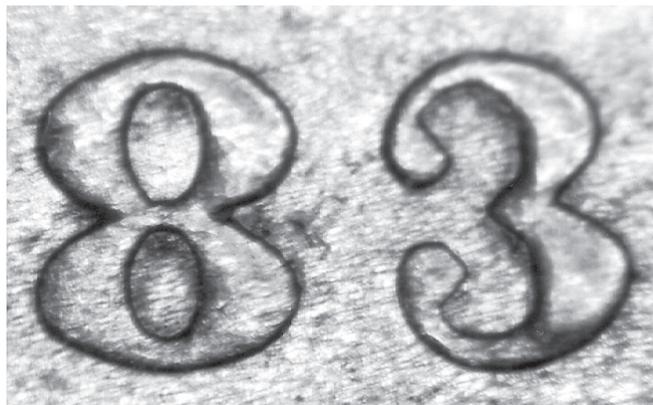

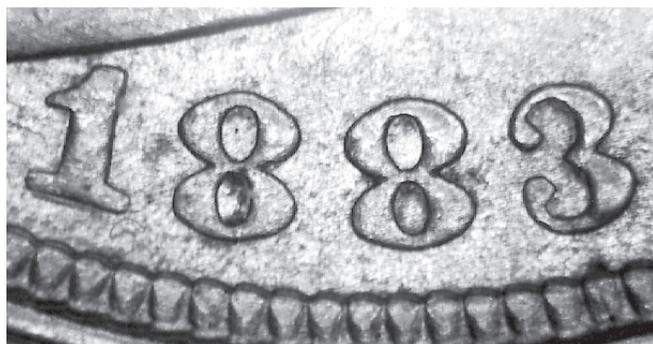

Description : Repunched Date 1883/1.
Repunched 1 seen below the base.

Die Markers:

Obverse - None noted.

Reverse - Die crack from the rim through the top of STATES.

	VF	XF	AU	MS60	MS63
Value :	7	9	12	25	50

1883 NC Repunched Date RPD-012

Cross reference : None

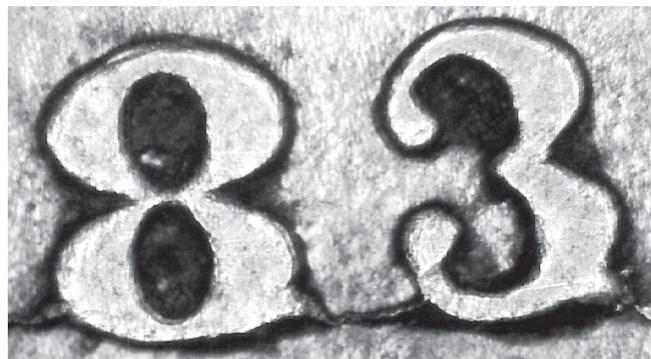

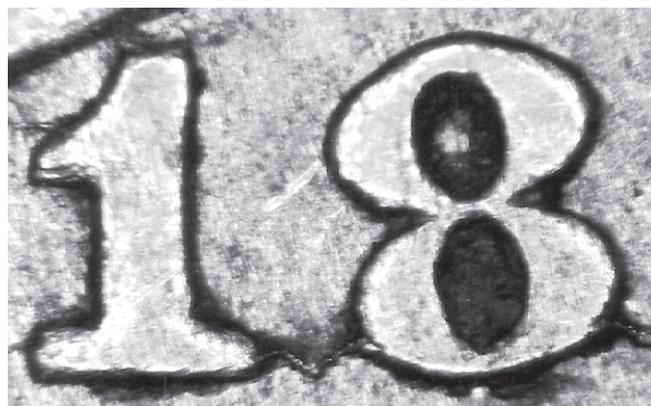

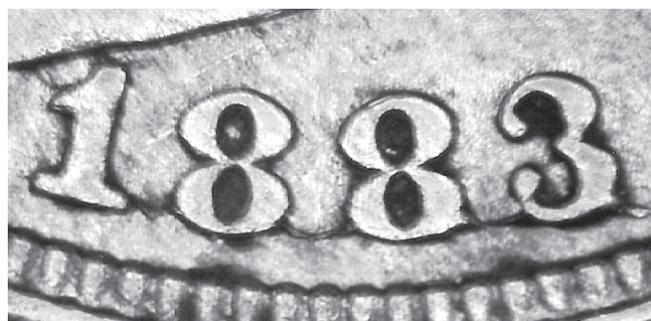

Description : Repunched Date 1883/1.
Repunched 1 seen below the serif.

Die Markers:

Obverse - Die crack from the left star through the bust, then through the top of the 1. Die crack through the base of the date to the rim then through the first four star on the right. Die crack from the rim through the 5th, 6th, and 7th star on the right, the cap, the 6th star on the right to the rim. Die crack from the 2nd to 5th star on the left.

Reverse - None noted.

	VF	XF	AU	MS60	MS63
Value :	7	9	12	25	50

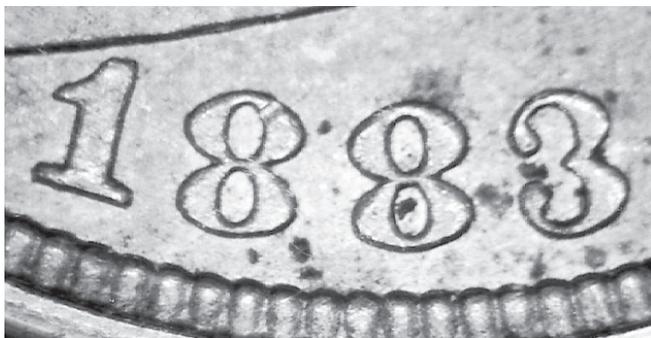

1883 WC Repunched Date RPD-001

Cross reference : None

Description : Repunched Date 1883/183.
 Repunched 1 seen below the serif and on the left side.
 Repunched second 8 seen on the left upper inside of the loop. Repunched 3 seen on the right inside lower loop.

Die Markers:
Obverse - None noted.
Reverse - None noted.

	VF	XF	AU	MS60	MS63
Value :	30	45	70	100	130

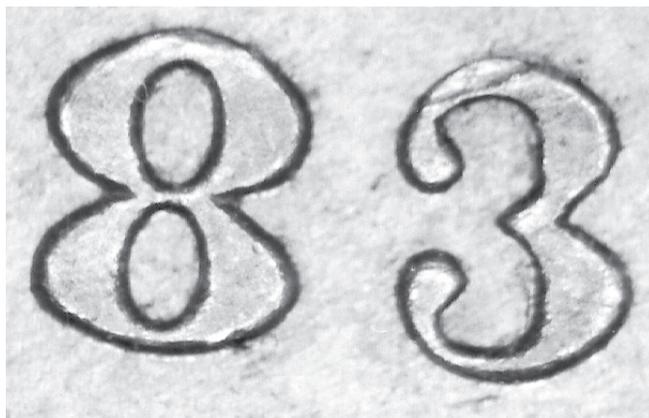

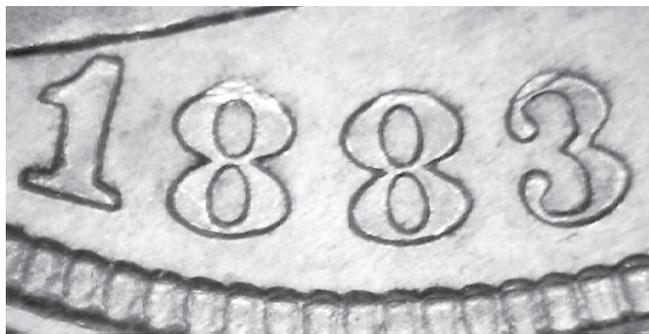

1883 WC Repunched Date RPD-002

Cross reference : None

Description : Repunched Date 1883/13.
 Repunched 1 seen above the serif. Repunched 3 on the right inside of the lower loop.

Die Markers:
Obverse - Die crack from the rim through the 6th and 7th star from the left then back to the rim.
Reverse - Die crack through the top of UNITED STATE to the rim. Die crack from the branches to the T of CENTS.

	VF	XF	AU	MS60	MS63
Value :	30	45	70	95	125

1883 WC Repunched Date RPD-003

Cross reference : PM-40.4

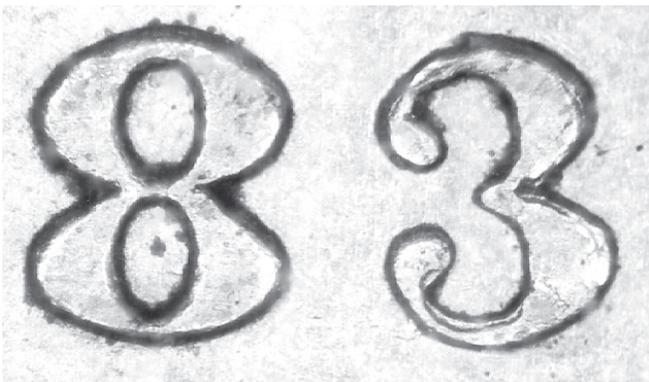

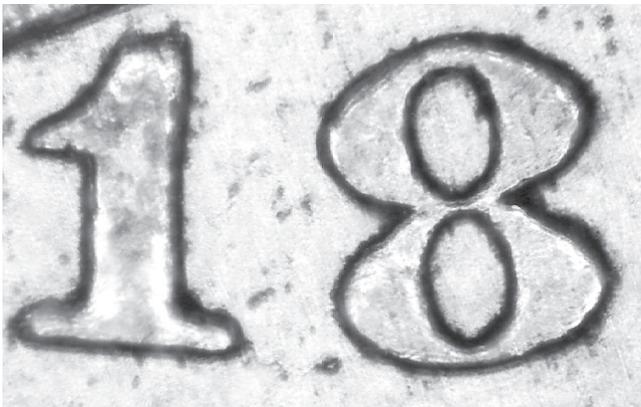

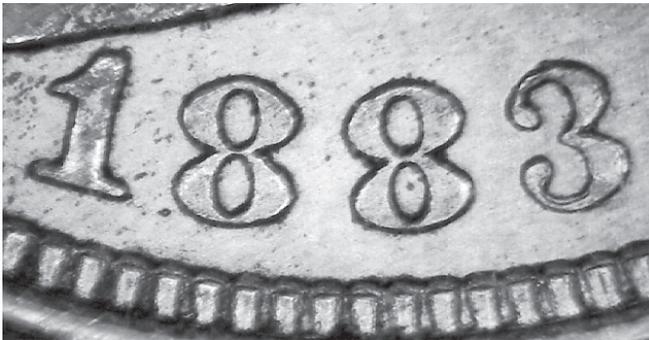

Description : Repunched Date 1883/3.
Repunched 3 seen above the top, middle, and bottom.

Die Markers:

Obverse - Die crack from the rim through the 18. Die crack through the first four stars on the right.

Reverse - None noted.

	VF	XF	AU	MS60	MS63
Value :	30	45	70	100	130

1884 Repunched Date

RPD-001
