

NOTES ON KLINGON MEDICAL CHART

Dan Curry

Visual Effects Producer/ Sr. Supervisor/Director

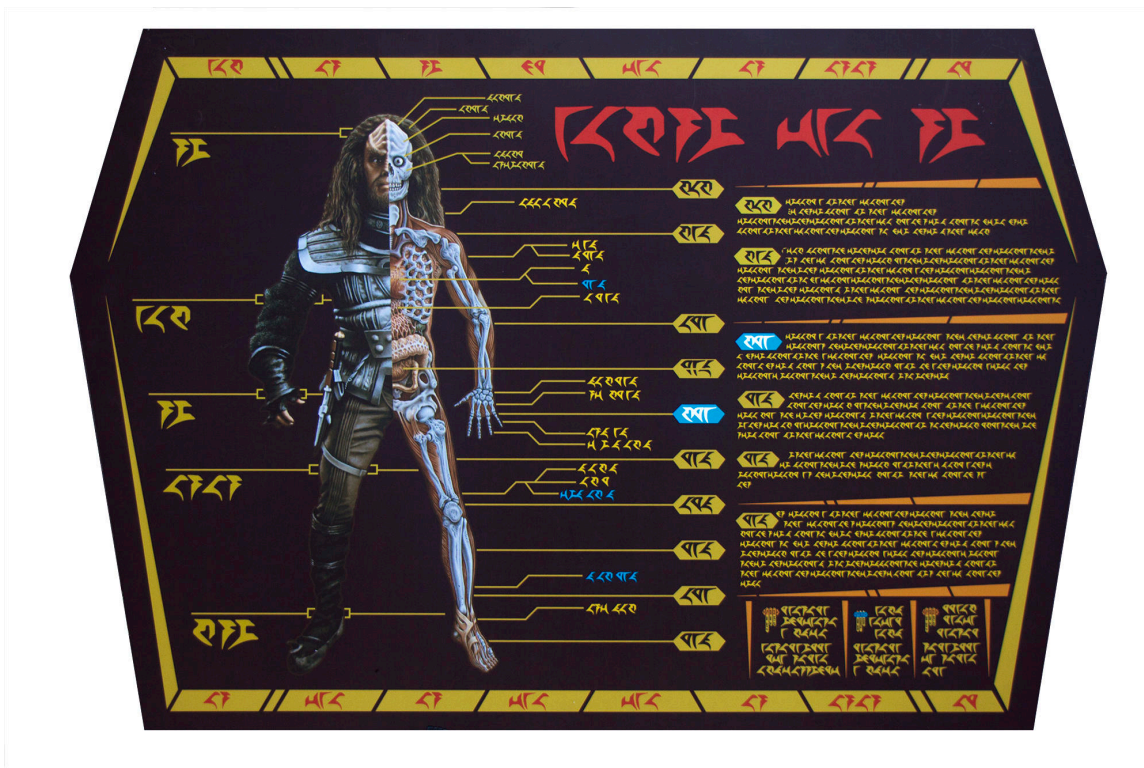

First Used On-Camera in the Klingon Medical Facility Set

STAR TREK: ENTERPRISE

Season 4, Episode 15 - "Affliction"

Air date: February 18, 2005

Klingons capture Dr. Phlox and force him to help them find a cure for a virus that threatens their race.

Incorporating an oil painting I had done earlier, *The Visible Klingon*, the art department, under the supervision of Production Designer Herman Zimmerman, created this medical anatomy chart featured on a wall of the set of the Klingon Medical Facility. Detailed information in the Klingon language call out anatomical features and list relevant medical data on the right.

Dan Curry

The Klingon Medical Chart will be accompanied by a signed 27" x 36" poster of the original oil painting seen below.
